

# International schools activity trail

## Teacher notes

**Meeting Point:** Collect your wristbands and activity trails from the Schools Desk in the Welcome Centre, Tower of London, on arrival.

**The activity trail:** This enhanced learning offer gives international students a new way to explore the Tower of London. Students will unlock the secrets of the Tower using a specially designed activity trail covering the key sites and stories.

The trail will provide facts about the Tower and its history as well as challenges and activities to help students make the most of their visit.

This activity trail will:

- Provide a more purposeful and enjoyable visit for students.
- Teach students facts about the Tower, its characters and different uses throughout its history.
- Encourage group discussion and collaboration.
- Suit a wide range of interests.

You will be given enough activity trails for your group and a map for each of the teachers. You are welcome to take the trails home with you.

During your session:

Please note that we require the following minimum adult to student ratio:

Age 7-15 = 1:10

Age 16+ = 1:15

SEND groups will determine their own ratios

Groups with an inadequate number of accompanying adults may not be admitted.

Your visit will include time outside so please encourage your students to dress accordingly.

Please pick up your wristbands and activity trails at the Welcome Centre.
